SUMMARY

Full Stack Engineer with hands-on experience in developing scalable and user-focused web applications using React and Express.js. Skilled in both frontend and backend development, API integration, and database management. Combines strong analytical and problem-solving skills with prior administrative experience to deliver efficient, reliable, and well-structured software solutions.

WORK EXPERIENCE

PT. Widya Inovasi Indonesia

Full Stack Engineer — *Nov 2025 - May 2026*

- Developed a real-time vehicle tracking system using IoT devices and WebSocket technology to monitor vehicle data such as location, speed, and fuel consumption.
- Built high performance frontend interfaces using React.js, ensuring 100% responsive design across mobile and desktop.
- Developed robust backend services using Express.js, including RESTful APIs for seamless data communication and system integration.
- Collaborated with team members to design efficient database structures and optimize system performance.
- Conducted testing, debugging, and deployment procedures to ensure the application is scalable and bug-free.

SMP Negeri 1 Kartasura

Finance Administrator & Informatics Teacher — *Jan 2022 - Jun 2025*

- Managed the full operational cycle of BOS funds totaling over IDR 500 million per semester using ARKAS, achieving 100% on time and compliant reporting in line with government accounting standards.
- Led budgeting, expense tracking, and financial reporting processes that improved fund allocation efficiency and transparency.
- Ensured tax compliance by accurately administering withholding, reporting, and remittance in accordance with national regulations.
- Organized and digitalized financial documentation and archives, maintaining audit-ready records with zero compliance issues.
- Taught Informatics to junior high students, covering digital literacy, basic computing, and internet safety.

Administrative Staff — *Aug 2020 - Jun 2025*

- Handled staff and student administration, attendance records, and official documentation, ensuring accurate tracking and up-to-date personnel data for teachers and students.
- Drafted and processed official correspondence and reports in compliance with government documentation standards, improving consistency and timeliness.
- Handled front office duties including welcoming guests, providing public information, and coordinating external communications.
- Assisted in organizing school programs and ceremonies by providing logistical and administrative support, contributing to the successful execution of academic, religious, and extracurricular events.

Hitz Barbershop & Black White Cleaner

Social Media Administrator (Part-time) — *Dec 2019 - Jan 2020*

- Created and designed promotional and educational Instagram posts using Adobe Illustrator.
- Managed post scheduling and content publishing, maintaining consistent visual branding and tone.
- Collaborated with the marketing team to highlight product features and engage audiences through tips, promotions, and visual storytelling.

ajakonline.com

Web Developer (Internship for 6 month, then part-time) — *Jul 2019 - Jun 2020*

- Successfully developed and deployed 10+ landing pages for clients using WordPress and Elementor, achieving an average 1-day turnaround per page while maintaining high functionality and brand consistency.
- Applied SEO optimization strategies to improve site visibility and search ranking through enhanced metadata, site structure, and keyword targeting.
- Customized website layouts and handled design revisions to align with client branding and marketing goals.
- Collaborated with the design and marketing teams to enhance digital content consistency and user engagement.
- Edited and managed social media content, ensuring alignment with branding and campaign goals.
